

To FCC                      My husband drives truck and listern to his XM radio all the time .He needs the road reports and the weatherforecast too.

My husband likes what he hears on Xm radio that why we pay for it.

Not all people listern to the same stuff.If some people or you and the others don't like it turn the radio off or don;t get XM radio,it's not free so don't buy it. Just leave stuff alone.
